Bulbs

Prices are not yet established on most items but on most Dutch bulbs they will be some lower and American grown lilies will take a sharp drop. This will be especially noticeable on the popular Crofts. Dutch Iris due to extreme winter temperatures will be short with a resultant firmness on Northwest grown stock. We would like to have an opportunity to quote on your needs of any of the following:

With labor such a factor, this important cut flower assumes even greater importance. Sowing directly in the bench makes for stronger, more vigorous plants. Careful thinning, selecting the strongest notched leaved seedlings to remain and proper feeding with a high grade fertilizer like Greenhouse Vigoro or Hygro will assure a high percentage of doubles.
